

## KOMPACT-M DUST COLLECTOR

KOMPACT-M is a compact and affordable dust collector designed for remove light or fine dust from a variety of sources.

### Features:

- The casing is made of heavy-gauge steel sheet with epoxy powder painted, strong, stability and durability.
- EC centrifugal fan technology provide more powerful suction with energy saving.
- Provide efficiency in filtering fine 99% of 0.5 micron dust particle.
- Automatic jet pulse filter cleaning.
- 2 of Ø4 inch (100 mm.) air inlet ports.
- Low operation noise level
- 4 freestanding wheels easily to movement.

<b>Technical data</b>	
Power source	1 phase 220-240 Volts 50 Hz
Suction motor	0.68 kW.
Air flow rate (max)	2 x 500 CFM
Filtration	Polyester cartridge filter
Filtration efficiency	99% of 0.5 µm. dust particle.
Filter cleaning	Automatic Jet Pulse
Noise level	74 dB (A)
Dimensions (WxDxH)	450 x 530 x 1450 mm.
Weight	80 kg.
